

# Governors' Balloon Safaris

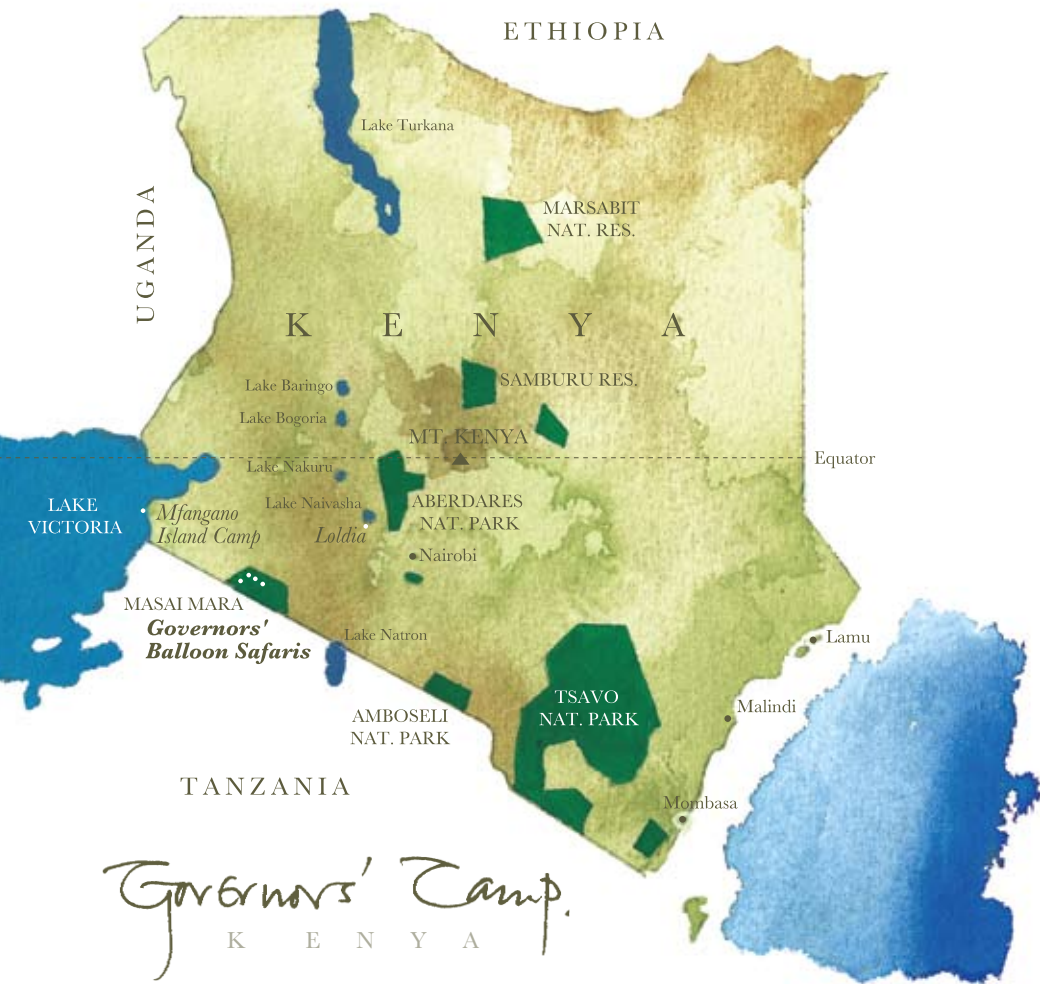

## GOVERNORS' BALLOON SAFARIS

The Masai Mara is home to some of the most spectacular animals on earth. Elephant, giraffe, wildebeest and impala perform an exciting and hypnotic show for our visitors.

The Mara from a balloon is one of the most spectacular sights on earth. Our giant hot air balloons are maintained by highly trained pilots and offer guests the chance to see the whole scope of the Mara in perfect silence and peace.

The adventure begins just before dawn. Flames from the balloons' burners light the darkness as the crews inflate their craft. As the first rays of sunlight flicker across the skies, the inflated balloons begin to rise. Suspended in a basket beneath the rainbow coloured canopy, you're off for a game viewing adventure with an entirely different perspective. As you float over the plains, the forest and the Mara River, you hear the sounds from below drift clearly upwards; a lion's roar, elephants crashing through the bush, screeching baboons perched in the tips of trees. For an hour or so you drift wherever the air currents take you, then in the time honoured tradition of ballooning you toast your return to earth with a champagne breakfast, cooked before your eyes on the plains of the Masai Mara.

## GOVERNORS' BALLOON SAFARIS

- Masai Mara, Kenya
- Balloons take off from Little Governors' Camp
